PROFILE

At a very young age I was already interested in everything related to technology. During the past couple of years I was able to combine that with my passion for writing, as a technology journalist. Currently I am working as an online communications officer for a University College.

In my spare time I try to go out with friends as much as possible, devour too many tv series, play PS4 games once or twice a week, and go for a long run as much as possible.

LANGUAGE SKILLS

Dutch	Mother tongue
